

INDUSTRY BULLETIN 2018-05

March 18, 2018

The BC Oil and Gas Commission (Commission) is investigating after a fire overnight at an Encana well site approximately three kilometres southwest of Pouce Coupe. At approximately 1:32 a.m. March 18, 2018, a truck on site caught fire, spreading and damaging several vehicles and associated hoses and a generator. Local and contract firefighters responded and successfully extinguished the fire. Ten residents from three homes were evacuated as a precaution. The fire was contained to the trucks that were on site and Encana facilities were not impacted by the fire. There were no injuries or well releases.

The Commission responded to the incident, with an inspector on-scene to ensure public safety and begin an investigation into the cause of the fire.
