Seismic Events near Fort St. John

The BC Oil and Gas Commission (Commission) is investigating a series of seismic events that took place between 6:27 and 7:15 p.m. (MST), Nov. 29, between 16 kms southwest and 25 kms southeast of Fort St. John.

Operations in the vicinity were immediately shut in as a precaution and a Commission investigation is being conducted. Mitigation strategies will be examined and put into place for any operations that are linked to the seismic events.

More to follow.

More details on these seismic events can be found on the Natural Resources Canada site at:
