

## Updates to Canadian Standards Association's CSA Z662-19

### **EFFECTIVE DATE: Immediately**

In June 2019, the Canadian Standards Association (CSA) released a new edition of CSAZ662 Oil and Gas Pipeline Systems. Under Section 1 of the [Pipeline Regulation](#) and Section 1 of the [Drilling and Production Regulation](#), the definition of CSA Z662 includes the most recent amendments and is immediately incorporated into the Pipeline Regulation and the Drilling and Production Regulation.

As there are significant changes and additions to the standards, the Commission requires all companies to review the latest version of CSA Z662-19 and take the necessary steps to ensure compliance. For further information, please refer to CSA Z662-19 Oil and Gas Pipeline Systems. This information can be found on the CSA [website](#).
