Dear Stephen Penner:

**RE: PRODUCED WATER DISPOSAL SPECIAL PROJECT CANCELLATION  
CNRL BUICK d-58-I/94-A-11 (WA# 3996)  
BUICK CREEK FIELD – UPPER HALFWAY FORMATION**

The subject well was drilled and completed in the Lower Halfway 'B' pool in 1977 as an oil well and was later converted to a water injection well in 1999. In 2004, the Upper Halfway zone was completed for water injection. The well was approved for salt water disposal into the Upper Halfway formation on July 5<sup>th</sup>, 2004 but disposal operations never occurred. In 2012, both the Upper Halfway and Lower Halfway zones were abandoned. On November 7<sup>th</sup>, 2019, Canadian Natural Resources Ltd. indicated having no plans for reactivation of this well and concurred that cancellation of the disposal approval is appropriate.
