Calgary, AB T2P 3G6

Dear Floyd Siegle:

**RE: PRODUCED WATER DISPOSAL SPECIAL PROJECT CANCELLATION
PRIMAVERA RES BOUDREAU 15-13-84-21 (WA# 11309)
BOUDREAU FIELD – BELLOY FORMATION**

The subject well was drilled and completed into the Belloy in 1998 as an oil well and produced from June 1998 to July 2001. The well was subsequently used for disposal from December 2004 until July 2011. In 2017, the Belloy zone was abandoned and the well was surface abandoned. In October 2018, Primavera re-entered the well and in December of 2018, the well was reapproved for disposal into the Belloy formation. Injection occurred from September 2019 to January 2020 and the Belloy zone was abandoned at the end of January with a bridge plug and cement. On March 11th, 2020, Primavera Resources Corp. indicated to the Commission via email that they had no plans for further disposal operations in the Belloy formation and concurred that cancellation of the approval is appropriate.

Pursuant to the *Oil and Gas Activities Act (OGAA)* section 75(2)(b), the Commission may cancel, suspend or amend a designation (iii) if the Commission considers that the designation is spent, or (iv) if the Commission considers that the designation is no longer appropriate, including, without limitation, for reasons of (a) public safety, (b) protection of the environment, or (c) conservation of petroleum and natural gas resources.

The Special Project Approval 18-02-010 for the Boudreau field, Belloy formation well Primavera Res Boudreau 15-13-84-21 (WA# 11309) is hereby cancelled under section 75(2)(b) of OGAA. In accordance with Section 75(2)(b)(iii), the Commission considers that the designation is spent.

Should you have any questions, please contact Logan Gray at (250) 419-4465 or the undersigned at (250) 419-4430.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Ron Stefik', is written over a horizontal line.
