

## Form M2: Notification of ERP Review Meeting

The drilling crew and company representatives on a drilling site must be familiarized with the Drilling and Completions ERP. Prior to drilling operations, an ERP Review Meeting is required before surface casing is set for the first well on any multi-pad well. If the rig crew for subsequent wells on a specific pad site is different, or if a new drilling and completions ERP has been submitted for a well or well pad site, a subsequent meeting is required.

Submission required to [EMP@bc-er.ca](mailto:EMP@bc-er.ca) with at least 2 business days notice.
